Merger Vote This Monday

The question of the consolidation of Crawford County Schools and the City of Grayling will be submitted to the qualified electors of the two districts in elections held Monday, June 20th. Polls will be set up in the gymnasiums of the two districts and will be open from 7 a. m. till 8 p. m.

It is the intent of these school districts to provide an excellent educational program as possible to the students so that they will be able to compete with students from other parts of the state and nation in whatever field they may decide to follow.

The Public Act 289 of 1964, State of Michigan, asked that small school districts merge, feeling that resulting larger districts could provide a more comprehensive curriculum for the students— a more varied program to meet more students. In smaller districts students are often forced to take subjects for which they have no interest or talent simply because there is no choice. They sometimes become bored or discouraged and drop out.

It has been rumored that if the City of Grayling and the school districts merge a new high school could be built in Grayling. The capacity of Grayling High School without crowding is 600 students. There were 443 students in grades 7 through 12 attending the high school the past year. Capacity at the elementary school is 600 students. There were 537 attending the elementary school last year which includes 87 kindergartners who attend only half days.

Total enrollment in the Frederic district last year was 75 in grades 7 through 12 and 129 in kindergarten through the sixth grade. While the decision would be strictly up to the new board of education of the merged districts if the issue is approved there is no reason to believe that the Frederic grade school children would be transported to Grayling. It is in the high schools where the lack of a varied program is felt.

To encourage small districts to consolidate the school district reorganization law allows a three year moratorium on the assumption of tax millage for bonded indebtedness. Locally Frederic has no bonded indebtedness having paid off the bonds on their new grade school some years ago. Grayling has. After the three year moratorium the combined district would then assume the responsibility following a favorable vote of the electors.

If the merger is approved at the ballot box the present boards of trustees of both schools will be dissolved and the extra voted millage now assessed for school operation will terminate. The board of trustees of the C O R district would then appoint an interim board to operate the new district until a board election could be held, proposed date August 2nd. A tax millage for operation request would be made at the same election. Be sure and vote.

CAMP TO BE BUSY

Indiana Guard Leaves, Michigan Troops To Arrive This Weekend

The two-week active duty training period for the 38th Infantry Division, Indiana Army National Guard, ends Saturday with another successful year for the Hoosier Guardsmen.

The annual training period centered around combat training of units of the Strategic Reserve force. More than 1000 reservists trained with the 38th Division.

The 38th Infantry Division, commanded by Major General Noble F. Schlatter, was evaluated on a daily basis by a Regular Army Evaluation Team of the 5th U. S. Army. While final results of the evaluation have not been completed, it is certain that Indiana's "Cyclone Division" is still rated one of the best in the country.

During the first week of encampment, a Civic Day program was held to better acquaint residents of the Grayling area with the mission of the National Guard and to promote good community relations. A newsfilm was operated by Major General John S. Anderson, Adjutant General for the State of Indiana, to airlift guests and news representatives to Camp Grayling for the annual Division Review.

The guests were also escorted to training sites during their two-day stay.

The coveted Eisenhower Trophy was presented to Captain Charles H. Greene, Commanding Officer of Company D, 788th Maintenance Battalion of Bedford, Indiana. The trophy is given each year to the Division's outstanding unit.

The two weeks included testing on the battalion level to bring the Hoosier Guardsmen to the state of readiness requested last fall by Secretary of Defense Robert S. McNamara. The 1966 camp ends with some elements of the Division pulling out of Camp Grayling at 6 a. m. Saturday morning, June 18, 1966. The convoys will use U. S. Highways 27, 31 and 131. The convoys will bivouac in southern Michigan and northern Indiana Saturday night and will then continue to their home stations, arriving Sunday, June 19, 1966.

Annual field training, 1966 for the 46th Infantry Division, Michigan Army National Guard, and attached units officially will get under way on Saturday, June 18, with the arrival of some 8,000 troops at Camp Grayling.

Units from all over the state will begin the long motor march to the historic Crawford County training site during the early morning hours and by late in the day will once again transform the camp, which is located along the shore of Lake Margrethe, into a bustling, bustling military post. The training period of the main body is scheduled for June 18 to July 2.

Training with the 46th Infantry Division will be 109 men from the 478th Trans. Co. (tactical Carrier) U. S. Army Reserve of Ypsilanti and 108 men from the 357th Chem. Co. U. S. Army Reserves of Madison, Indiana.

As has been the custom over the past several years, the 156th Sig. Bn. (Cbt Area) of Detroit, Adrian, Monroe and Kalamazoo, will undergo AFT at Camp McCoy, Wisconsin. Tentative training dates established by Fifth U. S. Army Headquarters are 23 July to 6 August.

County Ladies Invited To Reception

The wives of the officers of the Michigan National Guard extend a cordial invitation to the ladies of Crawford County to attend the annual reception to be held at the Officers' Club, Camp Grayling, on Saturday afternoon, June 22nd.

Camp AuSable Expects 200 of World's Youth

Two hundred junior youth will arrive at Camp AuSable this week Thursday, June 16th for a ten day camp. They will come from Detroit by camp busses.

These young people are the children of delegates to the World General Conference of Seventh-day Adventists being held in Cobo Hall in Detroit, June 16 to 25. This camp will be unique and different in that the delegates come from all parts of the world. It is expected that there may be some of the campers who will have difficulty speaking the English language.

Camp AuSable has had many summer camps for junior boys and girls coming at different weeks, but this is the first time both will be there at the same time. Camp director Lawrence Caviness will be assisted by Fred Beavon, former camp director, and a staff of over forty working with him in all phases of camp life.

During the past week a new well has been drilled and a new rest room is being built. Tent areas have been prepared in a different section of the camp to house the girls. The boys will be using the regular camping facilities.

Camp life begins with Morning Watch and ends with a thrilling camp fire on the point. Guest speakers will come from Detroit also and will bring stories and experiences to the campers from all parts of the globe.

Head Start Begins June 20

The Grayling Head Start summer school will begin on Monday, June 20th. Twenty children have been selected to take part in this pre-kindergarten program. Five children are from Frederic and fifteen children are from the Grayling area.

These children, who will enter kindergarten in the fall, will attend for six weeks from 9-12 a. m. In addition, there will be family picnics and pot luck suppers in which the children's families will take part.

This program is under the Office of Economic Opportunity. It was initiated to give this age children an opportunity to make a better adjustment to school. It is hoped that this favorable attitude toward school will carry over for future years and will help keep children from dropping out of school.

It is also hoped that some children who may need to be stimulated to want to learn, who may need to be exposed to books and other educational materials and experiences, will be given this opportunity and thus will be more on a level with children who have these advantages when they enter regular kindergarten.

Mr. Joseph Stripe, superintendent of the Grayling schools, made application for this program. Mrs. Virginia Minor will be teacher-director. Mrs. Lois Southwell will be a teacher-aid. One other teacher aid is yet to be selected.

tiful Flag of the Free."

Following the introductions, the officers of the Grayling Chapter, 83, were escorted to the East, introduced, and remained there for the balance of the evening, creating a "color scene" in their old-fashioned gowns. All officers were present with the exception of Marian McMillen, who could only be with them in spirit as she was in Mercy Hospital at the time.

Mrs. Feldhauser sang a beautiful solo, "The Exodus Song" prior to the feature of the evening, the appearance of the Hillsdale County 1887 Ritual Drill Team.

Worthy Matron Dorothy Williamson introduced Betty Clark, Past Grand Matron and originator of the 1887 Ritual Drill Team. Resplendent in their hoop-skirted gowns in beautiful silks and taffetas, and with the male members of the team in Prince Albert coats and full beards, the ritual was presented as it was 100 years ago. All present were thrilled with the performance.

Following the presentation, Mrs. Clark introduced the members of the team and explained its purpose. All expenses of traveling are paid by the individual members of the team and at the end of each performance the Black Silk Hat is passed for a free-will offering. After minimum expenses of programs, pictures, phone calls, etc., are deducted, the offering is turned over to the Grand Chapter Scholarship Fund.

After the hat was passed in Grayling the offering was counted and it was announced that on this, their 60th performance during the past five years, they were happy and gratified to announce that the largest contribution they had ever received had been collected here—a total of \$150.

Members of the Ritual Team were asked to head the refreshment line set up in the corridors of the School. The refreshments were served by members of the Masonic Lodge to the nearly 300 persons attending.

The center of attraction on the serving table was the beautiful 30 inch high birthday cake consisting of a 16 inch square bottom and round layers in three tiers with a gold "75" on the top. It was decorated with lilacs and pink flowers and was flanked by silver candle holders holding lighted pink tapers. Favors were gold napkin rings fashioned to look like huge diamond rings on which was the legend—"Grayling Chapter, 83, 1891-1966". The punch table was centered with a crystal epergne holding pink carnations and pink tapers. The meeting room was modestly decorated with an arrangement of lilacs in an old-fashioned bowl and pitcher set belonging to the grandmother of Worthy Patron Olin Williamson. Yellow daffodils were used elsewhere.

Chapters represented were Alpena, Atlanta, Cheboygan, Gaylord, Roscommon, Houghton Lake, Lewiston, Vanderbilt, Onaway, Indian River, Rogers City, Rose City, Mackinaw City, West Branch, Mio, Hillsdale, Osseo, Honor, East Lansing, Harrison, Litchfield, Cadillac, Farwell, Holt, Saginaw, Detroit, Kalamazoo, Jonesville, Flint, Allen, Pellston, Lake City, Genesee, Bearborn, Moscow, Reading, North Adams and Berkley.

Prior to the anniversary celebration the members of the Ritual Team and the Mackinaw City Chapter, who is Grayling's Sister Chapter for this year, were guests of the local chapter at dinner held in the dining-room of the Masonic Temple.

Sunday morning prior to the departure of the Ritual Team for their homes in the extreme south of Michigan, they were guests of Worthy Matron and Worthy Patron Dorothy and Olin Williams for a Northern Michigan breakfast at Dunk's Inn between Grayling and Roscommon.

The entire spirit of the celebration was summed up in the welcome given by Worthy Matron Dorothy Williamson when she stated: "Birthdays and other anniversaries hold very little appeal to any of us unless we can share them with friends and loved ones; and that is why we chose to celebrate our 75th Chapter birthday with a party and have you, our friends with us, for some of the dearest and most cherished friendships have been thru our Eastern Star."

How to succeed in business by really trying

Ford sales are at an all-time high.
During May Ford outsold all other car makes!

The word is spreading—fast—that Ford Division is building the best cars it has ever built. And it's true. Never have Ford cars been so good—never have Ford sales been so high.

People discovered our 1966 Ford was the strongest Ford ever built. A strong car, well-engineered, is a quiet car—and the '66 Ford has a ride that is quieter even than some of Europe's most expensive hand-built luxury cars.

Over a million people have already bought Mustangs. This rare blend of sports-car excitement and solid value is the most popular new car in history... and right now it's the world's best-selling hardtop and convertible.

Wagon buyers are excited about our Magic Doorgate—the greatest step forward in wagon convenience in years. It opens up like a door for people and swings down like a tailgate for cargo. It's standard equipment on all Ford and Fairlane wagons.

Car shoppers discovered a whole new range of comforts and conveniences. The '66 Ford offers power front disc brakes, a Stereo-Sonic Tape System, America's largest V-8 to perform on regular fuel, Silent-Flo Ventilation that keeps air fresh with all windows closed, and a new Safety/Convenience Control Panel that lets

you lock all doors with one switch, has lights to warn if fuel's low or a door's ajar, reminds you to fasten seat belts.

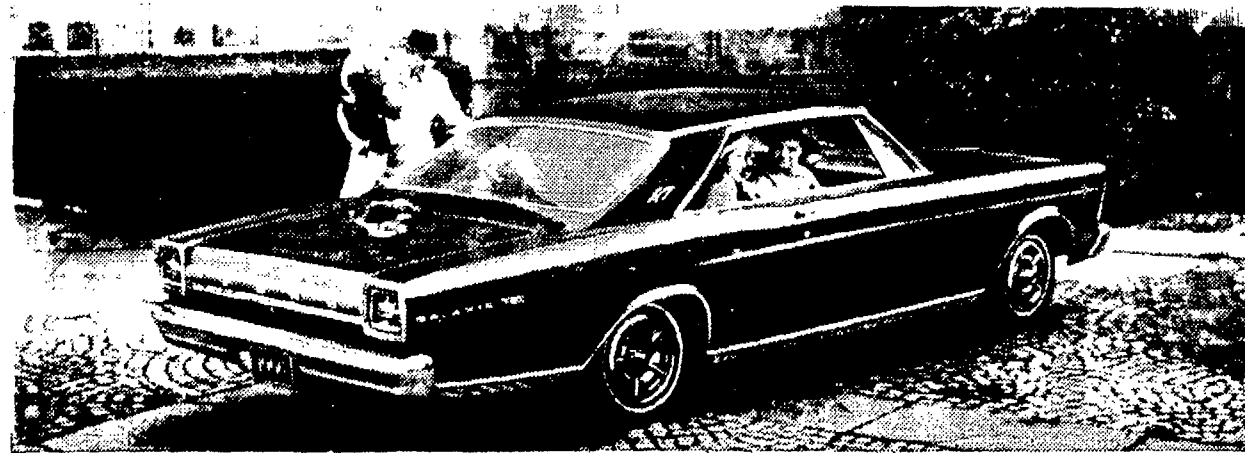

A whole new group of sports-minded car buyers has come over to Fairlane. We've redesigned it completely with 30 new models, including GT's, sports-luxury XL's, convertibles, Squire wagons, and an exciting new Sport Shift Cruise-O-Matic Drive (on GT/A models) that gives you the ease of an automatic—or lets you shift manually for the fun of it.

People everywhere are finding out just how much extra value we've built into today's Ford cars—extra value that's the reason why Ford sales have soared to an all-time high.

And that's why Ford Dealers... loading from strength... are now offering you the best deals ever. There are specially equipped, specially priced Fords, Fairlanes and Mustangs, and special values on all our cars—across the whole line. See them soon.

A Medical Milestone . . .

The United States will pass another medical milestone this month when medical school graduations mark the nation's population of physicians over the 10,000 mark. The entry of the 300,000th doctor of medicine in the records of the American Medical Association will be an event of special significance. In a profession accustomed to dramatic progress in the science of medicine, too little recognition has been given the medical profession for its quiet, persistent efforts to increase the number of physicians available to bring the benefits of modern medicine to the American people.

Too often, uninformed or misinformed critics of the profession have accused the American Medical Association of limiting the supply of physicians to keep competition down and fees up. On the contrary, the AMA and the state and local medical societies have more than any other organization, public or private, to increase the number of doctors. The physician population has been increasing faster than the general population for several years and is expected to continue this trend.

Medical school construction has been booming. The

U. S. now has 88 medical schools—11 more than existed at the end of World War II. In the next five years, 13 more will open. At least six and possibly a dozen others will be built or under construction by 1975. Medical school enrollments and graduations are at record levels.

The American Medical Association particularly has long been engaged in extensive programs to attract more talented students to careers in medicine, to assist medical students, interns and residents to finance their education and training, to help in the development of new medical schools, and to maintain high standards of medical education. These constructive programs have a twofold objective: To increase the number of doctors to meet the demands of a growing population and to assure that the doctors who serve you have the best possible education and training.

All Northern Michigan from Bay County to the Straits of Mackinac will observe its first Black-Out. Sirens will sound alarms and starting promptly at 10:15 (eastern war time) to be followed by the several periods, and announced "all clear" 11:00 p. m. Every home and place of business is in possession of printed charts governing the occasion and everyone is duty bound to observe them. Everyone is to be strictly upon his honor and comply implicitly with the orders. A scarcity of wardens will make it difficult to watch every place, however with loyal cooperation Crawford County should be able to turn in a splendid report. Only Grayling, Lovells and Frederic are organized, however officials are hoping that other portions of the county will consult their clocks and follow instructions with equal diligence.

What can we say about the weather unless we resort to vituperation? Anyway one pleasant day is usually followed by rainy, raw weather. Today is rainy, cold and windy, with an occasional feeble peep from the sun. Heavy rains have predominated for the past week. Summer begins June 22nd and then we should have a right to expect summer weather. State conservation officers are not expecting the usual large influx of fishermen to invade the choice fishing areas of the northern part of the state June 25, the day set for the opening of the

precipitation. Following the lunch, visiting and goodbyes were said.

Pastor and Mrs. Jespersen came to Grayling in August 1962, called to serve St. John Lutheran Church, as well as the Messiah Lutheran Church near Roscommon. He has been in active ministry for over thirty years, during which time he and his wife have served churches in Iowa, Nebraska, and Minnesota, as well as Michigan. During the past two winters they have conducted Craft Classes in their home and also at Messiah Church, which many of the church members, as well as others, have enjoyed.

Pastor and Mrs. Jespersen will have charge of the Arts and Crafts Program at a YMCA camp, Camp St. Croix, in Hudson, Wisconsin, for the summer months, where 200 children are enrolled for a 10-day period each. The Pastor will teach Leathercraft, and Mrs. Jespersen wood painting and carving.

Due to this summer camp commitment, Mrs. Jespersen had to leave Grayling on June 6th, a week ahead of her husband. The pastor left on Monday, June 13th, for Circle Pines, Minnesota, and will join his wife at Camp St. Croix by the weekend.

The Jespersens have made many friends in this area during their four years spent here, and they regret to see them leave, but wish them the life's richest blessings in their retirement years.

Carlson Named County Information Coordinator

James M. Telford, president of the Michigan Good Roads Federation, has announced the appointment of Bruce Carlson of Grayling to serve as Crawford County Coordinator of the Federation's information program organization. Carlson will be responsible for obtaining and transmitting information concerning county and municipal roadway problems as well as suggesting future action needed.

Telford said that the Federation has become increasingly concerned by the adverse effects on traffic safety and driver convenience that have been caused by roadway inadequacies throughout the state.

In recent weeks, Telford said, the Federation has been conducting meetings with key county leaders all across Michigan and has found many of them to be deeply worried by inadequate roads, streets and highways.
